

DEAR FRIEND

It's hard to imagine that so much can be demanded from little hands and little bodies, but such is the plight of the brick making children on the outskirts of Multan, Pakistan who are made to work in unrelenting conditions just to help support their families from a meager pittance.

## THE GENERATIONAL CYCLE CONTINUES

There is no escape, no reprieve and this generational cycle sadly continues. God has laid it on the hearts of WOW to build these children a school.

We are in great need of your help and ask for a donation in making this desire a reality. Women of Worth International

*For eight and half hours of work each day, Gabir earns 50 Rupees, or about 60 cents. Working six days a week, he uses his small hands to prepare and carry enough mud for 600 to 700 bricks daily. There is no shade from the unrelenting sun.*

has provided Bibles, books and uniforms for 50 children. It only takes \$10 to buy a Bible and seven school books. With each bible presented to a child, the

Gospel will be shared with them. What a wonderful means to introducing them to their Savior. For another \$10.00 each child could have a new uniform. The uniform will have been the first new clothing the children will have had.

What an eternal difference this can make in the lives of these children. Let's help give them a life they are more deserving of.

Generous donors like you are a key to our success and make it possible to provide for the needs of these children. We hope to count on your support. Kindly donate under the following methods: Pay Pal or Check.

With heartfelt thanks for your generosity,

Women of Worth International  
*Marilyn Orton*

***“The generous will prosper; those who refresh others will themselves be refreshed” ~ Proverbs 11:25***

Your support is valuable and so much appreciated!

*Her price is far above rubies. - Proverbs 31:10*
